“A mathematical formula  
should never be “owned”  
by anybody!

Mathematics belong to God.”

— Donald Knuth

# Emigre

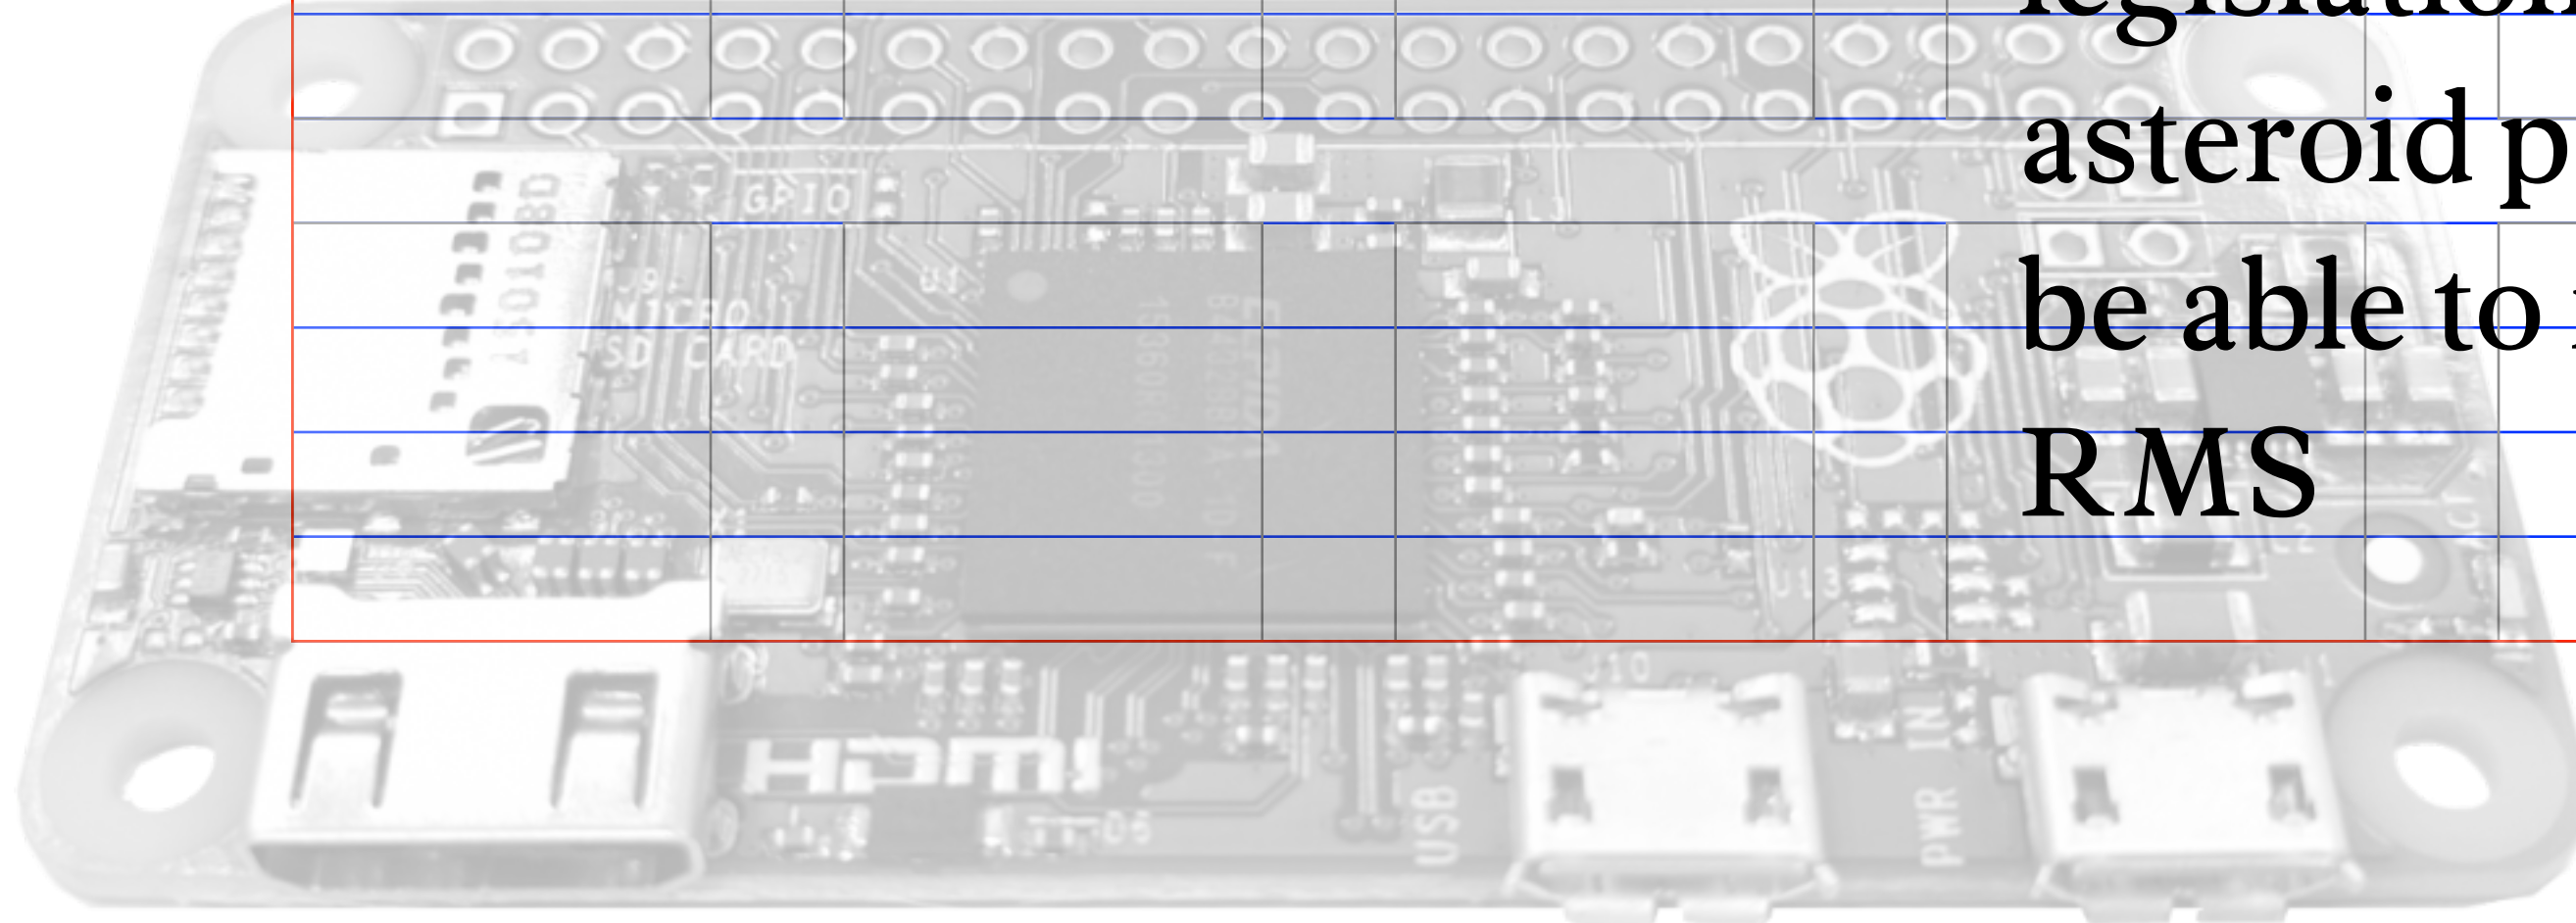

# GNU+Linux

"In the long run, making programs free is a step toward a postscarcity world, where nobody will have to work very hard just to make a living. People will be free to devote themselves to activities that are fun, such as programming, after spending the necessary ten hours a week on required tasks such as legislation, family counseling, robot repair and asteroid prospecting. There will be no need to be able to make a living from programming." --
